

the climate is right  
for sustainability

Sustainable September is an annual campaign that highlights the many different threads that are necessary to weave a sustainable future. Sustainable September demonstrates and celebrates sustainability in action.

This year's theme, 'The Climate is Right for Sustainability', makes that all-important link between the sustainable practices we employ and the positive consequences on climate change and our quality of life.

Check out the [Calendar of Events](#) to experience social, environmental and economic sustainability in action. Many are free to attend. This year's highlights include:

- Sustainable Wine Production
- Main Roads Sustainability Seminars
- National Sustainable House Day
- SS07 Finale – The Climate is Right for Sustainable Business

[Get Involved](#) as a registered participant, funding partner or volunteer to co-create a just, sustainable and prosperous Western Australia.
